Spring

Ideas for 4-5's

Communication, Language and Literacy

Listening Games

Play some fun listening games like 'I spy'. This is a variation on the traditional game as you give a clue. For example, 'I spy with my little eye something that grows and has petals'

TOP TIP – don't look at the item when you are giving the clue!

Maths

Numbers and Suits

See if you can find a pack of playing cards. Talk about the numbers and shapes on the cards. You may even want to sort the pack into suits and order the cards.

Physical

Sock Boules

Play a game of sock boules. Each player has 3 pairs of rolled up socks.

Try to have the same colour / pattern for each player. Take it in turns to throw them at a target. The person who gets the closest wins!

Emotional and Mental well-being

Cloud Watching

Why not try some cloud watching? What shapes or objects can you see? Can you show what you have found to someone else?
