Rotherham Strategic Housing Land Availability Assessment Addendum

Assessment of Potential Housing Land Supply in Rotherham

31 March 2018

Simon Moss Assistant Director Regeneration and Environment Services Rotherham Metropolitan Borough Council Riverside House Main Street Rotherham S60 1AE

Introduction

This is an update to the Rotherham Strategic Housing Land Availability Assessment 31 March 2017 (SHLAA) and published in 2018; this refreshed report provides details of completions between 1 April 2017 and 31 March 2018 and commitments at 31 March 2018 as measured against the Core Strategy target set out in policy CS6 'Meeting the Housing Requirement'. It is an Addendum to the 2017 SHLAA and does not re-consider those sites classed as 'not currently suitable' included in Appendix One Table viii).

A SHLAA is a process that identifies land with *potential* for future housing development. All local planning authorities are expected to undertake a SHLAA in order to identify an adequate supply of land for housing. This is an important function of the planning system and an evidence-based policy approach is a key principle of the National Planning Policy Framework (NPPF¹).

The SHLAA has provided essential evidence to support the Rotherham Local Plan. Local Plans are required to identify broad locations and specific sites for new housing that will enable continuous delivery of housing over a period of at least 15 years from the date the Local Plan is adopted. The Core Strategy was adopted in Rotherham in September 2014 and the Sites and Policies Document adopted in June 2018. This Addendum is prepared to support the now adopted, Sites and Policies Local Plan.

The Core Strategy housing requirement is 14,371 new homes. This is equivalent to 958 dwellings per year for the 15 year plan period 2013 to 2028; and includes the deficit in housing delivery arising from 2008 until the submission of the Core Strategy in 2013. Changes to Central Government policy recently (February 2019) led to the publication of a Housing Delivery Test (HDT) and a Target provided for all local authorities.

The Housing Delivery Test sets a lower target for housing delivery in Rotherham than that included within the Local Plan, and uses more up to date 2014 based household projections; the Core Strategy target is derived from the 2008 based subnational household projections. Monitoring data from 2013/14 onwards demonstrates that housing completions in Rotherham have yet to meet or exceed the annual Core Strategy requirement and a more akin to the HDT target.

The standard HDT methodology produced by Central Government, results in a minimum requirement of circa 580 net new dwellings per year in Rotherham. This is c380 net new dwellings lower than the Core Strategy requirement per annum. The recently published, local housing need figure is therefore significantly different to the current Core Strategy requirement and is more likely to be achievable in this Borough.

The Council has failed to meet Housing Delivery Test target for completions over the last three years, the Council is therefore required to publish an Action Plan (August

_

¹ National Planning Policy Framework, Department of Communities and Local Government, February 2019.

2019), to consider the root cause of under-delivery of new home completions, in the Borough.

Given this significant difference between the recently published local housing need figure and the Core Strategy requirement, the Council is proposing to update the adopted Core Strategy housing requirement and policy CS6. A report was presented to Cabinet on 08 July 2019 seeking Member approval for the Council to commence a partial update of the Local Plan Core Strategy (2014) [Agenda Item 15: Local Plan Core Strategy Five Year Review (Pages 223 - 249 refer)]. The Council will prepare and publish a Local Development Scheme setting out the timetable for preparation of the partial review of the Core Strategy towards the end of 2019.

It is important to emphasise the status of the SHLAA and to clarify that it does not allocate land for housing development and does not make policy decisions on which sites should be developed. The role of the SHLAA was to identify a pool of *potential* housing sites against which other policy considerations were balanced. In Rotherham it was used to support decision-making in the preparation of the Core Strategy and the Sites and Policies Local Plan, and the under-taking of a Green Belt review.

The results from the SHLAA Addendum update is used to revise the housing trajectory² which is reported in each authority's Local Plan Annual Monitoring Report³. The consideration of delivery rates on sites identified in the SHLAA and likely levels of windfalls allows a more accurate housing trajectory for the period up to 2032/33. However, not all the sites identified in the SHLAA as being 'developable' have been allocated for housing in the Local Plan.

This Addendum updates available information on dwelling completions and existing housing commitments (sites with planning permission for housing). This review has included desktop surveys and interrogation of existing databases and GIS layers to determine the specific location of new sites granted planning permission, it assesses the current status of known sites that may have been superseded, sub-divided or completed. A number of on-site surveys were undertaken to confirm completion numbers and to certify completion of historic long term development sites. From this update we can also determine the 5-year supply of deliverable sites (2018/19 – 2022/23).

Reference to earlier Strategic Housing Land Supply Assessments provides all details of the methodology adopted; this is not reiterated in this Addendum.

-

² The housing trajectory compares annual housing delivery to the annual housing targets. It shows how many new homes have been built since the plan base date (2008) and estimates future annual rates of housing delivery up to 2028, using the current Core Strategy target.

³ In 2011 the Government withdrew guidance on Local Plan Monitoring, Section 113 of the Localism Act 2011 proposed the removal of the requirement for local planning authorities to produce an Annual Monitoring Report for Government, while retaining the overall duty to monitor. Authorities can now choose which targets and indicators to include in the Authority Monitoring Report as long as they are in line with the relevant UK and EU legislation

Dwelling Completions

This section provides an overview of all dwelling completions in Rotherham in the period (2017/18).

Gross Completions in 2017/18

In Rotherham in 2017/18 there were 471 dwellings reported as completed. Of these 72 units were built on small sites and the remainder 399 dwellings were on large sites (10 or more units).

Table 1(a) below shows the trend in permissions on small sites (capacity for less than 10 dwellings) over the last 10 years. Results from this table indicate that on average 148 dwellings per annum have been granted permission for development on small sites.

The now superseded March 2012 version of the NPPF stated that an allowance for windfall sites in the five- year supply should **not** include residential gardens⁴. Previous versions of the SHLAA had included residential gardens in the small site completions figures; however this information has now been reviewed and refreshed to exclude those small site permissions on residential gardens. This review and further work on the available data provided an appropriate evidence base to inform the windfall assumptions and land supply within the Local Plan. It was agreed with the SHLAA working group to monitor small site completions annually to both 'include residential gardens' and 'exclude residential gardens'; refer to tables 1b) and 1c) for details.

Paragraph 70 of the NPPF⁵ (February 2019) notes that where an allowance is made for windfall sites as part of anticipated supply... should provide compelling evidence that they will provide a reliable source of supply; should be realistic; and plans should consider the case for setting out policies to resist inappropriate development of residential gardens.

Small site completions data is available from 2008/09⁶. On average 101 dwellings have been completed each year, on sites which *include* residential gardens, and 90 dwellings completed each year, on sites which *exclude* residential gardens. The information provided in table 2 demonstrates the Greenfield / Brownfield split of all development since 2012/13. Waverley is considered to be a brownfield site, given its previous uses for opencast coaling and former Orgreave Coking works. Restoration has been undertaken to create development platforms suitable for residential housebuilding and the creation of a new community in this location.

⁴ National Planning Policy Framework: March 2012, paragraph 48 https://www.gov.uk/government/publications/national-planning-policy-framework--2

⁵ National Planning Policy Framework: February 2019

_

⁶ Monitoring on sites within residential gardens is not available prior to 2008/09. Completions data is available for this period, however this was before the SHLAA database of sites was established, and data is not held to the level of detail required.

Table 1: Rotherham: Recent Trends in Permissions and Completions on Small Sites

a)	Permissions											
		2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	Average
		95	98	81	103	159	258	259	182	154	91	148

		159	129	106	95	63	69	120	86	116	72	101.5

c) Completions (sites excluding residential gardens)											
	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	Average
	157	116	83	80	60	60	112	74	106	55	90.3

Table 2: Brownfield /Greenfield Annual Gross Completions All Sites

	Brown	%	Green	%	Total
2012/13	366	69.7%	159	30.3%	525
2013/14	370	67.0%	182	33.0%	552
2014/15	444	70.1%	189	29.9%	633
2015/16	438	74.9%	147	25.1%	585
2016/17	435	72.6%	164	27.4%	599
2017/18	373	79.0%	99	21.0%	471

The following figure demonstrates the long-term average of housing delivery since the adoption of the Unitary Development Plan in 1999; this figure is circa 630 new homes per annum.

The information provided in the table 3 below considers the average build-out rate on larger sites in the Borough and assists the Council in reviewing the annual delivery rates per house builder.

Information in table 4 details average and gross densities on some of the larger sites. This information enables the council to estimate the likely capacity of new development on sites allocated in the Local Plan.

Finally table 5 provides details of the number of affordable homes delivered through S106 Planning Agreement since 2011/12. In total 470 new homes have been built over this time period using S106 Planning Obligations.

Table 3: Annual & Average Build-Out Rates on larger sites (over 35 units)

Gross and Net Housing Delivery since the Core Strategy Base Date (2008)

Prior to the publication of the Housing Delivery Test target, and the requirement to meet this refreshed target, the overall requirement in the Rotherham Local Plan Core Strategy was 14,371 dwellings for the period 2013/14 to 2027/28.

The requirement uses a base date of 1 April 2008 and Tables 6.1 & 6.2 detail the number of new housing completions since 2008. In total 5469 dwellings have been added to the housing stock over the last ten years. Final net completion figures for 2017 / 2018 based on Building Control records (at 1 April 2018) are 471 units.

Table 6.1 Backlog against Rotherham Target from Base Date 2008

	2008/09	2009/10	2010/11	2011/12	2012/13	Total
Local Target	850	850	850	850	850	4250
Net Additions	606	339	485	688	511	2629
Difference	244	511	365	162	339	1621

This difference between the local target requirement and net additions is the backlog (1621) and has been included in the adopted Core Strategy target.

Table 6.2 Backlog against Rotherham Adopted Core Strategy Target

	2013/14	2014/15	2015/16	2016/17	2017/18	Total
Local Target	958	958	958	958	958	4790
Net Additions	552	633	585	599	471	2840
Difference	406	325	373	359	487	1950

59% of the target has been met since the adoption of the Core Strategy target, without any adjustment to completions.

Table 6.3 Five Year Core Strategy Housing Target & Identified Backlog

Housing Requirement 958 x 5	4790
Plus 20% (958)	958
5 Year Housing Target	5748
Subtotal Backlog	1950
Completions Adjustment since 2008/09	-343
Adjusted Backlog remaining	1607

By including adjustment to completions (3183 completions of all sites) based on cleansing of the database, use of the Local Land and Property Gazetteer and site visits, 66% of the Core Strategy target has been met.

Five Year Potential Supply of Deliverable Sites (1 April 2018 to 31 March 2023)

This section summarises the supply of deliverable and developable sites as at 1 April 2018. It includes details of completions in the year 2017/18, and estimated commitments for the next 5 years (2018/19 to 2022/23). Details of specific sites are included in Appendix 1. The update of the SHLAA shows that within the five year supply, at 1 April 2018, there were 7044 dwellings that are deliverable and not yet completed. This includes the planning permission for the new community at Waverley for those residential units to be built in the plan period (2028). Delivery at Waverley new community is programmed to continue beyond 2028.

Of the dwellings with planning permission, 631 dwellings are on small sites. This assumes that only 70% of the gross total of small sites with planning permission will come forward in the 5-year period (2018 to 2023), in accordance with the SHLAA Methodology. Annual delivery on identified small sites over the 5 years has been smoothed to reflect an even delivery of completions on site. Sites identified as under construction have started and partial delivery may have been achieved on site. Estimated delivery figures are included in the year of expiry of their planning permission. Small site windfalls can only be accurately recorded on completion of the residential development.

Table 7: Small Site Commitments

		Net (x

Potential Supply of Developable Sites (2023/24 to 2032/33)

Table 9 provides information on the developable supply of new dwellings for the period 2023/24 to 2032/333; this is 11007 dwellings, this figure excludes those sites not currently suitable. Sites defined as not currently suitable include all those that are to be retained within Green Belt but which have been included within the SHLAA and explored for their potential contribution to meeting housing needs. However these sites are neither allocated nor identified for development within the Local Plan.

Table 10 reviews the number of completions and commitments against the Core Strategy target for the period to 2028.

Table 9: Rotherham Borough: Supply of Developable Sites (after 2023/24)

Existing allocated housing sites - PDL	579	0	579	0	579
Existing allocated housing sites - greenfield	3498	711	4209	615	4824
Other 'suitable' identified sites – PDL	455	0	455	0	455
Other 'suitable' identified sites - greenfield	119	0	119	0	119
Sub-total (suitable and no policy constraints)	5,556	1,611	7,167	1079	8246
Other 'suitable' identified sites with policy constraints – PDL	28	0	28	0	28
Other 'suitable' identified sites with policy constraints – greenfield	1629	2183	3812	229	4041
Sub-total (suitable but with policy constraints)	1,657	2,183	3840	229	4069
Sites not currently suitable - PDL	342	86	428	48	476
Sites not currently suitable - greenfield	288	3735	4023	5140	9163
Sub-total (not currently suitable)	630	3,821	4451	5,188	9639
Overall Total (Suitable Sites Only)	7,213	3,794	11007	1,308	12315
Total Previously Developed Land (PDL)	1,967	900	2,867	464	3331
Total Greenfield	5,246	2,894	8,140	844	8984
% on Previously Developed Land	26.27%	23.72%	26.05%	35.47%	27.05%

Table 10: Core Strategy Requirement - Completions and Commitments = Remaining Requirement

	14,371 homes (comprising the requirement of	SHLAA 31/03/2018 including back-dated
Core Strategy requirement (Core Strategy Policy CS6	12,750 homes from 2013/14 to 2027/28 plus	completions in previous years following
'Meeting the Housing Requirement')	1,621 homes backlog against the local target	interrogation of Live Data Base, Desktop
	from 2008/09 to 2012/13) Source: AMR 2018*	investigation and Site Visits
Less completions since 2013:		
2013/14	552	688
2014/15	633	642
2015/16	585	590
2016/17	599	620
2017/18	471	471
Sub-total requirement	11,531	11,360
Less existing commitments at 31st March 2018:		
Under construction	3,175	2328
Full planning permission	643	469
Outline planning permission	315	320
Small sites (less than 10 dwellings) with planning	770	631
permission x 70% (as per SHLAA methodology)	770	031
Remaining requirement 2018-2028	6,628	7612
Site allocations (excluding allocated sites under		
construction/with permission)	8,168	8,278
Small windfall sites (2021 to 2028 at average rate of	CAA	CAA
92dpa)	644	644
Large windfall sites (2021 to 2028 at average rate of	896	896
128dpa)	030	050
Supply sub-total	9708	9818
Excess over remaining requirement	3080	2206

^{*} The AMR 2018 data is based on uncleansed data and is provided as a snapshot in time. These figures do not "tally" with the cleansed data prepared for the SHLAA March 2018.

APPENDICES

Sites and Policies Commitments, Allocations & SHLAA Sites

- i). 2018 SHLAA Large Sites Under-Construction
- ii). 2018 SHLAA Large Sites with Full Planning Permission
