## Notes

Available expenditure from Table 3
Tumover from study area taken from Tables 7a-7e
Market share is the tumover from study a rea expressed as a proportion of total available expenditure.
Expenditure inflow assumed to be equivalent to $3 \%$ of study a rea derived tumover.
Total tumover potential is the tumover from study a rea plus expenditure inflow
Benchmark tumover at 2016 assumed to be equivalent to total tumover potential. Tumover of commitments taken from Table 8b
Residual expenditure is the total tumover potential minus benchmark tumover and tumover of commitments.
Sales density for new floorspace is indic ative
Benchmark tumover and indicative sales density for new floorspace subject changes in floorspace effic iency between 2016 -2034 (based on forecasts from Experian.

## Notes

Available expenditure from Table 31
Tumover from study area taken from Tables 7a-7e
Market share is the tumover from study area expressed as a proportion of total available expenditure (taking into account impact of commitments).
Expenditure inflow assumed to be equivalent to $3 \%$ of study area derived tumover
Total tumover potential is the tumover from study area plus expenditure inflow
Benchmark tumover at 2016 assumed to be equivalent to total tumover potential. Tumover of commitments taken from Table 8 b
Residual expenditure is the total tumover potential minus benchmark tumover and tumover of commitments.
Sales density for new floorspace is indic a tive.
Benchmark tumover and indic ative sales density for new floorspace subject changes in floorspace efficiency between 2016-2034 (based on forecasts from Experian.
