

# Ideas for 2-3's

## Communication, Language and Literacy

### Matching Game

Have you got a few jar lids, paper and pictures either printed or from a magazine?

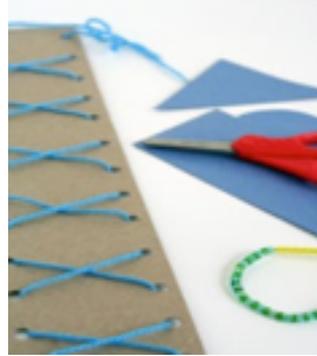

Cut out and stick one picture in the jar lid and the other spaced out on a piece of paper.

Looking at the pictures can they match the jar lid to the picture on the paper.

To make it harder, turn the jar lids over and you have to find the right picture to match on the paper and you can start to take it in turns.

Lots of new language!!

## Maths

### Threading

Using thin card which you could cut from a cereal box, punch holes in a row at both sides.

Find some wool or thread and thread through the holes. You can try and make patterns like the picture above or make your own patterns such as straight lines.

Can you count the rows?

## Physical

### Dance Freeze

Everyone likes to dance and move around.

All you need is music. Start to dance and when the music stops you shout 'FREEZE'!!

Make sure they do not move, try and make them laugh!!

Off we go again!!

## Emotional and Mental well-being

### Let's Set the Table!

When it is tea time and you can all sit together and enjoy your tea, ask if they would like to help set the table.

They love to help you and it supports their emotional development.

Where do the knives and forks go, do we need spoons too?

(Always make sure the children are safe with items used)
