Q1. To which document do your comments relate? Wickersley NDP Submission Version April 2021

Q2. Do you wish to? Object

Q3. Please provide your comments below making clear which part of the document you are referring to (specifying relevant paragraphs, tables, figures, boxes or appendices).

I do not understand how, despite all of the consultation and thought that has gone into the recommendations, that there is no mention of:

- traffic volumes through wickersley and the need for redesigning the roundabout to cope with the ridiculous volume of traffic we now have to deal with given all of the additional houses that have been built. The round about is no longer fit for purpose.
- reduction in speed throughout the area, roads are like race tracks
- no provision for crossings at the top of morthen road and northfield lane, will it take a death to make a change? Those crossings are literally death traps!

Q4. Suggested modifications. If you consider that amendments should be made then it will be helpful if you could put forward any suggested wording changes.

See Q3, the topic of traffic volume and dangerous nature of it has been entirely omitted.

Q5. Do you wish to be notified of the Council's decision under Regulation 19 of the Neighbourhood . Yes, please notify me of the Council's decision

**Planning Regulation 2012 whether to accept the
Examiners' recommendation? (please tick)**
