The Company Secretary Grange Landfill Limited 559 Carlisle Street East Sheffield South Yorkshire S4 8DT

Dear Sir/Madam

Environment Act 1995 Permit EPR/DB3803MN

Monitoring Information Request: Grange Landfill Limited, Droppingwell Road, Rotherham (Watson's Tip)

I would be grateful if you could provide this Council with all relevant monitoring information relating to Grange Landfill Limited and permit EPR/DB3803MN for the disposal of waste at the above site. This should include:

- 1. Methodologies
- 2. Site, borehole, and gas well plans
- 3. All sampling results including gas, groundwater and soil samples
- 4. All analysis of sampling results
- 5. Details of the companies undertaking the sampling work

As you will be aware, the Council has a range of concerns relating to this site. Importantly one of those concerns relates to the nature of the waste already tipped at the site and the risk of harm that this might present both to the Council's land and to residents using the site for recreation. Accordingly, the Council is requesting all relevant information from the your company as the permitted operator of the site, that would enable the Council to assess whether the site does, or does not, present a risk of significant harm.

I would be grateful for the return of the information requested within ten days of the date of this letter.

Yours sincerely,

Damien Wilson Strategic Director Regeneration and Environment
